

Our Spotless Stay P R O M I S E

Our team will remove all used items from the room such as bedding & towels

Next, we perform a full clean of the room and bathroom including vacuuming the carpet, mopping floors and wiping down all surfaces with our trusted cleaning products

We take an additional disinfecting step using disinfecting products to wipe down several room surfaces such as, switches & electronic controls, handles, bathroom surfaces and the remote control

After our housekeeping/duty manager completes a final check of your room, we seal the door with our Queens Spotless Stay seal of approval. Upon your arrival you will have peace of mind that the room is clean and ready for your stay
